

Title: Visit to the GMRT

David Jauncey

Abstract:

My visit to the GMRT in January-February 2010 started back in October 2007 with the presentation to Professor Govind Swarup at the Jodrell Bank 50<sup>th</sup> Anniversary, of the Grote Reber Medal for 'lifetime, innovative achievement in radio astronomy'. I have collected a number of my sketches and photographs from these events. Some images and memories of these places and people involved are presented here.
